

Strategic Plan for ES&H

Amy Pavnica, 6/2013

Mission

Our mission is to provide a safe and healthful workplace for all employees while having minimal impact on the environment.

Current State

- A subcontracted managed service now purchases and maintains printers, desktops/laptops and monitors for the laboratory, which are compliant with Executive Order 13514.
- GCC is an Energy Star building.
- Improvements and efficiencies are being made annually to our computer rooms.
- Human Performance Improvement (HPI) Training is being rolled out, as training becomes available.
- Internal auditing occurs annually on various programs.
- Improvements have been made in communication through newsletters, training, meetings, etc.
- Emphasis of safety is put on a high level of priority to our employees.

Vision

Through continual improvement of our ES&H performance, and compliance to legal and regulatory requirements, our goal is to reduce ES&H impacts associated with our mission and the mission of the laboratory.

Stakeholders

Computing Sector

Goals and Objectives

- Implement practices to reduce risks and to prevent injury to our employees.
- Maintain plans to minimize and respond to emergencies.
- Examine and guide ES&H practices of our contractors.
- Manage and reduce consumption of natural resources and generation of waste through design, reuse and recycling.
- Measure performance by monitoring and improving compliance with ES&H Policies.
- Provide information regarding ES&H practices and policy through dialogue, training, and openness with employees.

Strategies

[CS Safety Plan](#) (revised annually)

Resource Needs

- Budget for materials to address maintenance and improvements in ES&H

Progress Indicators

- Leading/Lagging Indicators (kept by ES&H)
- Accomplishments from annual CS Safety Plan
