Fermilab Computational Science Internship Program

Call for R&D projects
All areas of Computing welcome!

Bo Feng, 2019 FCSI intern
Mentor: Brian Nord, SCD
Research: Distributed Applications for Deep Learning

Please send your R&D project proposals for next summer to fcsi@fnal.gov. Proposals should clearly describe in a couple of paragraphs the benefits and significance of proposed work for the students and the Computing Sector.

We plan to interview candidates at the Grace Hopper Celebration of Women in Computing (GHC) 2019. With approximately 20,000 attendees last year, GHC provides an ideal opportunity to find promising candidates!

Sept. 13: Project proposals due
Sept. 16: Resume access
Sept. 25: Deadline for short list

Questions? Email fcsi@fnal.gov

Kuheli Sai, our first GHC intern for the 2019 FCSI program
Mentor: Qian Gong, OCIO
Research: Network Traffic Anomaly Detection using Machine Learning
