

Grid Coordination Meeting on Workload Management Systems

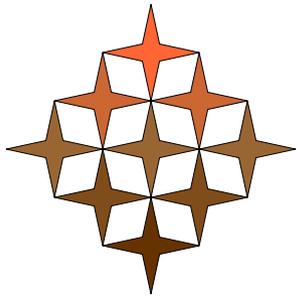

Agenda

- Introduction
- Workload Management Systems (glideinWMS)
 - Burt Holzman
- Resource Selection Service (ReSS)
 - Gabriele Garzoglio

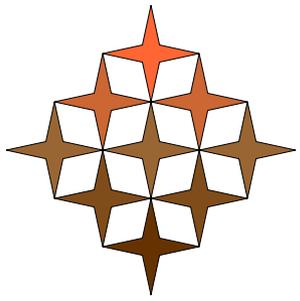

Glidein WMS

- Provide a simpler interface for submitting grid jobs
- Enable experiment involvement in job priorities etc.

Resource Selection

- Enable jobs to choose sites for running which meet specified criteria
- Increase chance of job survival

Why These 2 Together??

- Both involved in choosing a site for job execution
- Plan to more closely associate the separate projects
 - Avoid single-developer mode
 - Cross fertilization of expertise
 - Insure both stay in synch where necessary
