FY08 Tactical Plan for Services/Linux

Tactical Plan Goal

- Provide robust, stable and secure infrastructure to support the major operating systems.

Roadmap, from past, to the future

- Set up the Remote Operations Center systems
- Added pam_krb5 module for shared accounts in the Remote Operations Center, and elsewhere
- Committed to XFS support in SL/SLF
- Investigating possible Short-Term Support platform for newer laptops/desktops (Fedora, or ?)
- Looking for better means of communicating with our customers – Farms support, for example
