JB

I'm good with this.  
Thanks,  
Jon

Jon and Rob,

Attached is the lessons learned document for the KCA End of Life project. You previously approved the closeout report.

Please send comments for updating this or an email notice of approval of this version. I've been posting email approvals to DocDB along with the documents instead of chasing after ink signatures on the closeout reports.

Thanks,

Matt Crawford  
Project Manager
